LOCALITIES.

The change of the Texas and Pacific from the hands of the old management to the new company was a very quiet affair. President Brown, as will be seen from a circular issued by him, appoints all the employees of the receiver to positions with the company.

President Brown of the Atchafalaya, Texas and Santa Fe Railroad, has extended his retirement policy to the salaries of the employees, and has announced his intention of instituting a general reduction of 10 per cent. in wages throughout the entire system, excepting engineers, brakemen or mechanical operators, where a strike would be likely to cause trouble. It is claimed that the reduced wages will be paid through the full season only. The beginning was made by the president's reducing his own salary 25 per cent.

Cathart Cure.

A sufferer, after years of suffering from the disease of Cathart, and having tried every known remedy, at last found a cure in the Cathart Cure. The Cathart Cure is a powerful cathartic, and is guaranteed to be pure and of the highest quality. It is the only cathartic that is absolutely pure. It is made from the finest ingredients and is guaranteed to be pure and of the highest quality.

Medical Advice to Patients.

There is a custom, a relic of a bygone life, by which the women of our day seek to add attraction to their beauty—the placing of the lobe of the ear and wearing in the hole some form of ornament—an earring. This operation is performed, as a rule, as soon as a little girl has arrived at the age of accountability, and it is related to the lobe of the ear and the hole of the ear. A piece of flesh is pushed out of the lobe, so that a small circular opening is made, and a piece of string, or anything convenient that will go through, covered perhaps by grease or vaseline, is pushed into the hole. The little girl may go around for a week or two with a dirty string or straw in her ear; the lobe is swollen and looks ugly, but never mind, it will add to her beauty in the end. The wound may become very much inflamed, so that an abscess of the lobe may take place, and when this is cured the ear may be disfigured for life. The lobe may be shrunk in consequence, or the hole may be too large. This, perhaps, does not happen very frequently, but it nevertheless happens, and the work has to be repaired, if possible, by the surgeon. It is a pity that this operation cannot be relegated to surgery. Surgeons operate daily for cosmetic effects; why may they not do this? It would be prophetic rather than cure.

TARRANT COUNTY.

Eight Precincts Still to Hear From, But Enough Known to Place the Result Beyond Question.

Every Democrat Elected by Majorities Above 750—Three County Commissioners Elected by Democrats.

Contrary to all reasonable expectation the returns in Tarrant county were still incomplete at midnight, and probabilities are that full returns will not be in until to-night. The election officers in the first ward made a last-minute effort. The vote polled was 348, and the length of the ticket made it a hard job to count them. During the day country boxes began to come in, and last night several county boxes were received.

MAN-FIELD.

The entire county Democratic ticket was ahead by the following majorities: Abbott, 22; Parker, 10; Beckham, 52; Harris, 7; Ayres, 11; Taylor, 50; King, 41; Richardson, 27; Bratton, 36.

BRATTON.

Parker, 199; N. W. Jones, 155; Beckham, 236; Priest, 129; Harris, 200; Diaz, 160; Ayres, 199; Bowles, 159; Taylor, 234; Smith, 129; King, 219; Farmer, 139; Richardson, 208; Dwygins, 151; Bratton, 192; Boals, 162; Robinson, 215; Boals, 162; Murray, 218; Hudson, 159; Goodell, 210; Sirelle, 114; Pool, 212; Moore, 15.

FIRST WARD.

It was 12:45 this morning when the judges returned the count in the First Ward. It stood:

Democratic electors, 601; Republican electors, 577; Union Labor electors, 53; Prohibition electors, 24.

ROBERTSON'S STORE.

Character as Indicated by a Person's Features.

The philosopher of the Pittsburgh Dispatch has evidently been riding in the street cars. Here, at least, are some first-rate street-car reflections:

Memory of Events.—This is shown by a wide, full forehead in the center.

Reasoning Power.—A high, long and well-defined nose and a broad face exhibits this faculty.

Moral Courage.—This faculty manifests itself by wide nostrils, short neck and eyes set directly in front.

Language.—This faculty is exhibited in the shape of the face, particularly by a large mouth and large, full eyes, open wide.

Self-Esteem.—This fact shows itself in a long, deep upper lip. Large self-esteem gives one dignity, self-control and perfect independence.

Firmness.—The presence of this faculty, when very large, is indicated by a long, broad chin. Firmness is synonymous with willfulness, perseverance and stability.

Perception of Character.—This is indicated by a long, high nose at the lower end of the face. This faculty is very useful, if not indispensable, to a judge in the exercise of the functions of his office.

Power of Observation.—The situation of this faculty is in the face just above the top of the nose, filling out the forehead between the eyes. The power of each eye is to take in the whole of the face, and it is by the aid of this faculty that the eye is able to concentrate the mind upon the subject of being observed.

Conscientiousness.—This is shown in the face by a square jaw, bonny-bonny, prominent cheek bones and general prominence of the features of the face. One has a sense of justice, honesty of purpose, rectitude of character and moral courage.
